EXCISE BOARD MAKES LEVIES

RATE OF TAXATION FIXED FOR SEVERAL TOWNSHIPS AND MUNICIPALITIES.

The Excise Board met yesterday afternoon and has been in session again today fixing the tax levies for the sub-divisions of the county. The work will probably be completed by night.

A levy of .3 mills was made for the county road and bridge fund, bringing the total county tax up to .5 mill.

Fitzhugh township was granted a levy of 2.2 mills; Stonewall township 2 mills, Francis township 1.5, Chickasaw 2.2, Allen township 2.2, Maxwell township 1.8.

Of the municipalities the rate at Roff was fixed at .5, and an election ordered permitting an additional levy of .3, and .6 was assessed for the sinking fund. Allen was allowed .4 with .9 for sinking fund. Francis was allowed .5 and 17.6 for sinking fund; Stonewall 4.2 with 10.2 for sinking fund. Ada 5.5 with 7.1 for sinking fund.

From this it will be seen that the rate of Ada is 1.26, a slight reduction over last year.

Other levies will be announced Monday.

BIG INCREASE IN THE SCHOLASTIC POPULATION

Oklahoma City, Ok., Aug. 11.—The apportionment of the common school fund, amounting to 80c per capita for the past year, which has just been made, shows that since the admission of the state the school population has increased 63,367. The number of school children in the state at statehood was 475,591, while the recent apportionment was made upon a basis of a school population of 539,058. Ten counties of the state show a decrease with the 1908 enumeration. These counties, with the amount of decrease in school population as compared follow: Atoka 1,115, Carter 1,336, Cimarron 334, Cleveland 305, Lincoln 1,459, Love 160, Marshall 802, Pottawatomie 1,815, Roger Mills 419, Texas 300.

COMMITTEE MEETS SUCCESS

GENEROUS RESPONSE TO CALL FOR SUBSCRIPTION TO COT- TON PREMIUM FUND.

Yesterday afternoon E. W. Hardin and C. S. Wood made a partial canvass of the town to secure subscriptions to the fund for paying the premiums for cotton brought to Ada, as agreed upon sometime ago by the Retail Merchants Association.

They report most gratifying success and are much pleased with the interest taken in the matter by those approached. It shows that the people are fully awake to the importance of the move and will make a success of it. The solicitors did not have time to make a complete canvass, but will finish the work in a few days and will give every business man in Ada an opportunity to contribute. If those not yet seen come across as liberally as those seen yesterday, Ada will get at least 2,000 or 3,000 bales this fall that would otherwise go elsewhere.

CANADA MAY ADOPT BANK GUARANTY PLAN

Oklahoma City, Ok., Aug. 12.—A demand is being made in the Province of Ontario, Canada, for a bank guarantee law, according to information received today by State Bank Commissioner Lankford.

Commissioner Lankford has received a newspaper clipping from Lindsay, Ontario, relating the story of the failure of a bank, in which a number of depositors lost their savings. According to the clipping the depositors of the bank formed an association for the purpose of asking the Dominion government for the enactment of a national bank guaranty law, by which each bank would be required to deposit a certain percentage of its capital stock with the government, to secure deposits in failed banks.

GREAT REVIVAL MEETING AT JESSE

A phone message this morning from Rev. W. J. Shipman states that his meeting at Jesse has been a most gratifying success. Up to Friday night there had been fifty conversions and thirty-seven additions to the church. Baptism will be administered tomorrow. He has no idea just when the meeting will come to a close.

MAN SENTENCED TO HANG SUES FOR DAMAGES

Denver, Colo., Aug. 12.—George King, who was sentenced to hang for the murder of Peter Jackson, the Ramah, Colo., hermit, is plaintiff in a suit for damages against the Colorado Portland Cement company for damages for the loss of an arm several months before he was arrested. King believes if he wins the damage suit he will have money to appeal to the supreme court. King was to hang in October. The damage case cannot be tried before the November term, but he hopes to get a respite until after that time.

AGREEMENT REACHED ON WOOL BILL

Washington, Aug. 11.—Doffing their coats and for the first time in history inviting the press to be present, the conferees of the two houses of congress on the wool tariff revision and farmers free list bill sat down in conference Friday to compose their differences. Finally at 6 p. m. they effected a complete agreement on wool and began consideration of the free list bill. The conference began at 10 o'clock Friday morning.

The wool bill, as agreed upon, will be reported to the senate Saturday by Senator LaFollette of Wisconsin and to the house by Representative Underwood. These men will direct the course of the bill in those two bodies and as the house has the papers bearing upon the bill that body will have to act first.

Effective October 1.

The bill was so amended as to require that the proposed law shall take effect October 1 instead of January 1, as provided in the senate and house measures. The conferees hope to have the report adopted in both houses Saturday and the bill quickly started on its course to the white house, where the president is expected to veto it.

The free list bill was under consideration for about fifteen minutes but the conflict between the representatives of the two houses was so pronounced that it became necessary to postpone action until Saturday afternoon.

After fixing 29 percent ad valorem as the duty on raw wool and changing the wool classification so as to conform to the language of the house bill, the agreement on other features became a matter of detail. At times there were sharp differences of opinion, but at no time was a disagreement on that measure threatened.

The change of classification has the effect of fixing a flat duty on all wools, and while it reduces the rates on ordinary wools from 35 percent as provided in the senate bill, and increases those of the house bill from 20 percent, it also increases the rates on carpet wools from 10 percent as provided in the senate bill to the 29 percent fixed by the conferees.

In most respects the duties on the manufactures of wool were increased over the rates of the house bill and reduced below those of the senate bill so as to make them correspond with the raw wool rate, but in some instances they were made higher than those of either measure.

A rate of 29 percent on oils and waxes was agreed to, while a rate of 34 percent was determined upon for combed wool and tops, including roving and roping, and of 39 percent on yarns.

Chickasha Follows Ada's Lead.

A dispatch from Chickasha states that the business men of that place are preparing to offer unusual inducements to farmers to market their cotton at that point this fall. Among other things they will follow the lead of Ada in offering valuable premiums to producers.

BAILEY RESIGNS FROM COMMISSION

DISPLEASED BY CRITICISM OF MONETARY COMMISSION—HE CLASHES WITH CUMMINS.

Washington, Aug. 11.—Senator Bailey today resigned from the Monetary Commission because he believed that the senate is about to pass the Cummins' resolution requiring the commission to make its final report by Dec. 4. Among other things Senator Bailey said that it is possible that the chairman of the commission might not show him the commission's report before Dec. 1, which would give him but three days in which to prepare his minority views as he is unalterably opposed to a central bank system, which he intimidated the commission is going to recommend.

Senator Bailey was disappointed also about other things. He did not like the criticisms which have been made of the time or the money which the commission has expended.

Senator Clark of Wyoming wanted Senator Bailey to recall this resignation, but the junior Senator was obdurate.

Not a Surprise.

The Bailey resignation came not exactly as a surprise, but as an interesting episode, in connection with Senator Burton's lone filibuster against the Cummins resolution. This resolution yesterday was made the unfinished business of the senate by a vote of 41 to 11. Every democrat except Senator Bailey and about twenty republicans, regulars and insurgents alike, voted in favor of making the resolution pending business. Senator Bailey and the following republicans, Bradley, Brandagee, Burnham, Burton, Crane, Guggenheim, Nixon, Oliver, Page and Perkins voted against.

Today Senator Cummins was determined to pass his resolution, and Senator Burton began a single-handed filibuster, starting in on the financial

history of the world from days of Ramezes and reading a speech or two delivered in congress in the days of Roscoe Conkling. In the course of this filibuster there were several roll calls, one of which developed the absence of a quorum, whereupon the Senate adjourned, leaving the Cummins resolution still unfinished business.

Resents Cummins' Criticism.

Senator Bailey's resignation came early in the afternoon. Obtaining the floor, he said he considered the criticism that has been made of the monetary commission both in regard to its work and its expenditures as unjust and unwarranted. Since the formation of the commission, he said, there have been two extra sessions of congress, and the time which the members of the commission would have devoted and which, he said, they intended to devote to the work, was necessarily consumed in the attendance of the two extra sessions.

He said he was in a position to say without personal feeling that the criticism of the amount of money expended by the commission is unwarranted, because he has not drawn a penny of the money for his services.

NEGRO LYNCHED AT FARMERSVILLE, TEXAS

Farmersville, Tex., Aug. 11.—Commodore Jones, a negro, was taken from the lockup here at 7 o'clock tonight and hanged to a telephone pole by a crowd said to number between 75 and 100.

The negro was jailed Thursday evening upon complaint by a young lady, who stated that he had used insulting language to her over the telephone. It became known this morning that there was some disposition to use violence toward the negro and Sheriff Robertson was summoned from McKinley. Gov. Colquitt was also notified. The negro was forced by the crowd to climb a telephone pole and a rope was put around his neck and fastened to the cable. He was then made to jump, and death by strangulation soon ensued.

Similar complaint was filed against the negro about a year ago, but as there were no witnesses to the alleged remarks, no action was taken. The conversation upon which the recent complaint was based was heard by others.

as they are. The stars, increased in number to forty-eight in anticipation of the admission of New Mexico and Arizona, are to be arranged in a circle to symbolize our federal union. Should any more states be admitted the circle is to be spread out.

Inside this circle there is to be one large, 5-pointed star composed of smaller stars to symbolize the nation. Within the big star composed of smaller stars Mr. Hayes would have a red circle to represent our colonial and insular possessions. The bill was referred to the committee on judiciary.

GRAY HAIR WILL MAKE YOU LOOK OLD

Use Wyeth's Sage and Sulphur
and Your Gray Hair Will
Quickly Vanish.

Gray hair is a mark of age, and nothing that can be said as to its beauty will effect the disadvantages of this mark of age set upon your brow.

Wyeth's Sage and Sulphur Hair Remedy darkens the hair and restores it to its youthful beauty. Our grandmothers and their grandmothers before them used sage and sulphur for darkening their hair. Nothing has ever been found more effective for this purpose than these two time-honored remedies, but Wyeth, a modern chemist, has combined the two with other ingredients which makes a delightful dressing for the hair, and which not only removes every trace of dandruff but promotes the growth of the hair. It also stops the hair from falling out and makes it beautiful.

All druggists are authorized to refund the money if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

MISSED THE MARK.

The Ada News takes a fall out of Uncle Sam's revenue officers who have been trying to collect internal revenue from parties convicted in the state courts on charges of bootlegging. The News falls into an error that is common. The internal revenue tax is a revenue measure, pure and simple, and has nothing to do with the regulation of the liquor traffic or its prohibition. And the methods of the government in collecting it are uniform throughout the entire country. If people are opposed to the government deriving revenue from the manufacture and sale of liquor, on moral grounds, they are consistent in objecting to the internal revenue law. But nobody who believes in such a tax at all can object to the present manner of its collection, if he understand the matter.—McAlester News Capital.

mark entirely. What the News objected to in the editorial referred to is the practice of the revenue officers to hunt up bootleggers after their arrest by county or municipal officers and granting them immunity from prosecution for operating without a revenue license on payment of the tax covering past offenses. What the News contends for is that such payment should not be permitted to bar their prosecution by the national government. We have no kick coming against the collection of all the government can get out of liquor dealers, but we still think that the officers should stop this practice of aiding and abetting bootlegging by thus passing over past offenses. The law provides that this tax be paid in advance. It is the enforcement of the law, and not its evasion that we are after.

The Duncan Eagle endorses Ada's plan of giving premiums to those marketing cotton here, and urges Duncan to follow the good example, prophesying that the town will receive at least 15,000 bales if such a plan is put into operation.

The Oklahoma City Times claims to have discovered a conspiracy whereby the governor will refuse to call a special session of the legislature to redistrict the state, and the democratic state organization will elect Roy Stafford, Jong Doolin and Bill Murray as congressmen-at-large. The Times has probably been listening at its own key hole.

The business men of Stonewall have raised a premium of \$45 for the first bale of cotton marketed there. Evidently our neighbor intends to be in the swim this season.

The Calvin Enterprise prophesies frost in September. And the Holdenville Democrat says the editor of that paper is no newcomer, either. Perhaps the hot weather has added his brain.

Campbell Russell's Ideas.

Campbell Russell, who was sat down on at the meeting of the board of agriculture at Stillwater, and Thursday submitted his resignation as superintendent of county farm demonstration war, which was accepted, has some ideas of how the board should be conducted, and thinks the legislature should make some sweeping changes.

First, he objects to an employee of the board being a delegate to the meetings of the body, and thinks that no delegate should be eligible to appointment on the board for a year thereafter. He wants a provision that no member can be elected except by a two-thirds vote, and that no candidate who fails to receive a majority of the delegates in his own district can be elected except by a two-thirds vote.

Russell would have a provision to the effect that no member of the board shall be appointed to a salaried position during the term of office for which he is elected, and also that no member shall receive a per diem for any purpose for more than sixty days in the year.

Tropics Near Arctic Circle.

Supt. A. E. Snyder, commanding the Royal Mounted at Whitehorse, Yukon Territory, reported to the Commissioner in 1909 that from north of the Porcupine there had come repeated rumors of the existence of a wonderful tropical region which was still inhabited by mastodons.

"The Indians," concludes Superintendent Snyder, "report having seen the gigantic tracks of these animals."

But little attention was paid to these stories, until in November of last year C. J. McIntyre and two companions made a most amazing discovery north of the Porcupine. They were traveling by dog-sledge, with the thermometer at forty below, when to their astonishment the temperature began to rise so fast that within a space of two hours they had thrown off their warm garments, and the snow was soft underfoot.

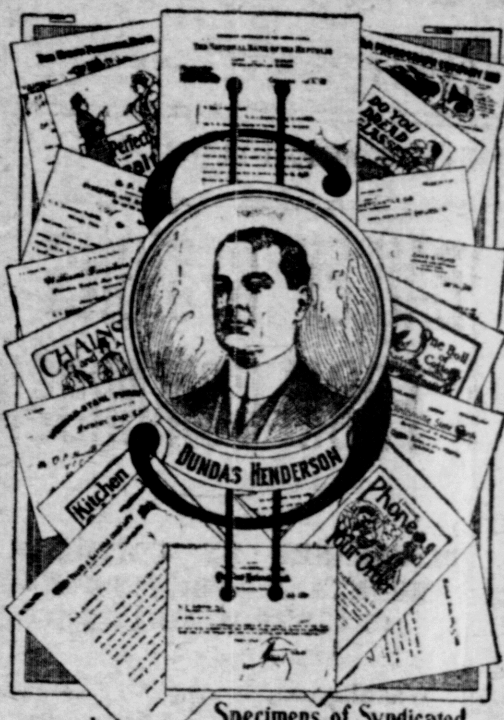

"It seemed," said McIntyre, "as though we were suddenly passing from winter into spring."

Soon after they came upon the first of numberless hot springs, the snow disappeared entirely, and dense vegetation took the place of the stunted bush and timber of the plains. Because of necessarily slow travel on foot the explorers were not able to determine the extent of this wonderful oasis in the midst of an Arctic desolation. They found several good-sized rivers flowing with warm water and teeming with fish, and the country was alive with bear, caribou, ducks, pheasants, wild geese, and other game, and gold was found in a number of the creeks. McIntyre will soon start at the head of a second expedition into this mysterious country.—Success Magazine.

PUT PUNCH INTO YOUR ADVERTISING

When you are attacked by someone who wants to do you bodily injury, if you are the average American man, you straighten out your body and give the miscreant a direct hit from the shoulder that lays him out—a candidate for the hospital.

That is called punch.

But there are other kinds of punch. Every kind of human action originated by a human being may be strong or weak according to the energy put into it by the person. The effect of those actions on the rest of the world, or on any particular person, when those actions make a deep and paralyzing impression, is called punch. We talk about the punch of a theatrical play, meaning the strong permanent blow of its action on the feelings of the audience. A story has punch and the most ordinary clerk in your store can give punch to his daily work and life that will leave a lasting impression on the people with whom he comes in contact. It is punch that makes you successful—without punch you cannot even hope to start on the road to prosperity.

'Punch' should enter into every action of your life. If you pray, put punch into it. If you sell goods in your store, put punch into the selling talk. 'Punch' shows sincerity just the same as that blow from the shoulder on the part of the man. If you look a woman or man in the face, and punch into the arguments and suggestions you will use to sell your goods, you will create an impression that you believe in what you sell and that fact alone goes a long way towards consummation of the sale.

When you look carefully over the written accounts of the men and women who have made history and been really great in all walks of life, you will find innumerable instances of punch, showing clearly that success was built on it, as much as on their other actions.

Many men and women believe all that is necessary to secure success in life is to conceive an idea or set of ideas and carry out the actions in connection therewith along well defined rules. They even become imitative and follow the rules laid down by the great men and women I have enumerated. That is the road to failure. No matter how good your plans are or well laid the methods of carrying them out, you must put punch into their execution to make them successful.

When you want to make your business

success, and you know that the highest grade of salesmanship, both inside and outside your store is necessary to that success—be sure you allow for punch in the execution of your plans. In your publicity, for instance, you need punch in the salesmanship used. No matter what your business, you require punch in that salesmanship to impress your goods on the minds of the people and make them remember you sufficiently long and earnestly to buy. It is just the same punch as is referred to in connection with the theatrical play. Unless that play has punch it would not leave a sufficiently good impression on the play-goers to make them criticize it to its advantage. Use punch, then, in your advertisements. Punch home "straight from the shoulder" into the minds of the prospective customer and he or she will remember you longer and more favorably than all possible rivals.

As you already know, there are four points to a successful advertisement that must be made operative before it can be successful. It must capture the attention of the prospective customer; it will have to create interest in his or her mind and it must afterwards bring conviction that the goods are what they are represented to be and that they are needed by the prospect. Lastly, the advertisement must cause the actual purchase of the goods.

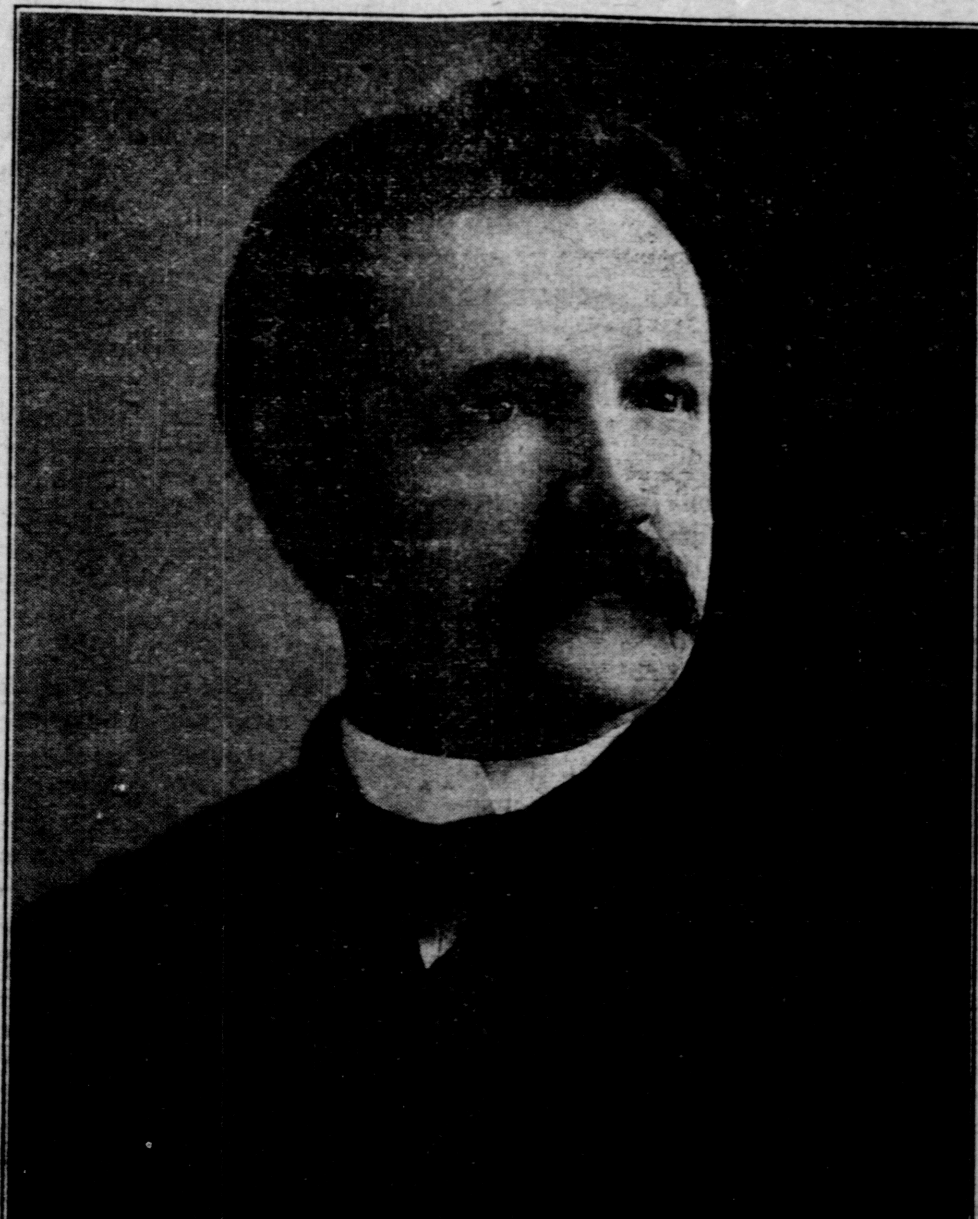

Any man who has studied advertising closely can very easily combine all those principles in some sort of a way, but it requires an expert to combine them successfully.

A salesman in your store may easily apply all the rules of selling to the customer that comes in, but he may not be successful through lack of forcefulness—punch. It is the same with an advertisement. You need punch—the appearance of forceful honesty and convincing power in the wording and expression of the ad to bring the results that you have a right to expect from it.

It is punch that makes all the difference between success and failure in the advertisements of our great retailers. It is punch that will bring success to you through your announcements and unless you are able to incorporate punch into them, you may as well do no advertising at all.

The best way to get advertisements that have not only the necessary punch but that are constructed in every way to bring results is sure to buy a syndicated advertising service. This service is offered in a series of 52, one advertisement for each week in the year. Each ad is supplied along with an attention compelling copperplate cut, the illustration drawn by a high priced artist. The whole series has been constructed by an advertising expert with a national reputation who has made success for many other merchants in the same position as yourself. It would be impossible to buy those advertisements for the low price at which they are sold—from one dollar per week up—but for the large numbers of each kind that are sold to thousands of retailers throughout the country. Only one merchant in each trade is allowed to use a service in his own town.

The retailers here would do well to get full particulars of this new syndicated advertising service from the manager of the News. The use of such salesmanship on paper—

Replanting the Forests.

Spokane, Wash., Aug. 12.—More than 100 men will be sent into the Coeur d'Alene national forest next fall to gather fir and pine cones, to be used in reseeded the timber districts in northern Idaho, burned over by fires a year ago. The United States forestry department will make an effort to gather 20,000 pounds of seeds, which are to be planted during the spring and summer of 1912. The department and the timber protective associations have more than 800 men doing patrol duty in the Idaho forests, which are safe this season, according to reports received by Albert L. Flewelling, president of the Western Forestry and Conservation association, with headquarters in Spokane. The recent rains have been general in northern Idaho, eastern Washington and Oregon and Western Montana, also in the boundary country, and it is believed there is no danger of serious outbreaks this summer. Six arrests and convictions for neglecting to extinguish camp fires are reported by wardens in the state of Washington this season. The lumbermen are giving the state and federal authorities every assistance and as a result of this strict vigil it is expected that several millions of dollars' worth of timber will be saved from destruction in the four states this year.

To Owners of Real Estate In Pontotoc County

There are frequently found, upon
examination, unknown and unsuspect-
ed clouds upon the title of real es-
tate, such as unpaid taxes, uncan-
celled mortgages, mechanic liens,
judgments, deeds of conveyances de-
fective in signature, in acknowledgment
or description, adverse claim-
ants, errors made by conveyancing
officers, and innumerable other de-
fects, any of which may exist, all un-
suspected by the owner, who fondly
believes his title clear, but who really
knows nothing about it, because he
has never had an investigation made
and an abstract of title prepared.
Most of these clouds and defects
could be cleared and cured were their
existence known in time; but they
lay dormant and are not discovered
until the owner is rudely awakened
from his fond dream of security by
some progressive speculator or pur-
chaser offering a good round price
for his property, but demanding an
abstract of title as the first condi-
tion of the sale.

THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in every-
one's mouth, and many are wondering
what the word signifies, though no one
has yet been found, who will deny that
NEWBRO'S HERPICIDE does the work.
Well, for the information of thousands of
people who like to know all about a good
thing, we would say that HERPICIDE
means, a destroyer or killer of "Herpes."
Now "Herpes" is the family name of a
disease caused by various vegetable par-
asites. A similar microbe causes dan-
drel, itching scalp, and falling hair; this
is the microbe that NEWBRO'S HERPI-
CIDE promptly destroys; after which the
hair grows. Sold by leading druggists.

**TWELFTH STREET
REVIVAL MEETING**

A large crowd heard Mr. Young last night discourse on the Value of the Soul.

The interest of the meeting and the appreciation of the theme was manifest by six grown persons responding to the gospel invitation.

The subject for tonight will be "The Sin of Neglect." Mr. Young announced that on Sunday at 11 o'clock he would discourse on "The Influence of Holy Spirit in Conviction and Conversion" and Sunday night "The Songs of Christ's Second Coming." Baptism Sunday afternoon.

**COMMENTS CORPORATION
LAWS OF OKLAHOMA**

Oklahoma City, Ok., Aug. 12.—That the constitution and laws of Oklahoma, defining the powers of the Corporation commission are the best of any state he has visited was the statement today of Max Thelen, attorney for the Railroad Commission of California, who is here investigating the workings of the Oklahoma body.

Mr. Thelen has visited twelve states of the union and made a thorough investigation of their laws governing the control of public-service corporations. He stated today that California adopted a constitutional amendment giving the railroad commission of that state general authority over all public-service corporations. The governor of the state, he says, will call a special session of the legislature to adopt a complete code of laws vitalizing this constitutional provision, and definitely fixing the powers of the railroad commission of California. At present the commission only has authority over railroads, interurban lines and express companies. Mr. Thelen stated today that he will recommend that the revised code, governing public-service corporations be modeled after four states—Oklahoma, Wisconsin, Washington and New York—adopting from each state the features of its laws which he believes to be the best.

Among the states that have been visited are Oregon, Washington, Texas, New York, Massachusetts, Maryland, Minnesota, Nebraska, Wisconsin, Georgia and Oklahoma.

Speaking of the Oklahoma Corporation commission, Mr. Thelen, said today: "I believe that although Oklahoma is the newest state I have visited, its constitution and laws, governing the corporation commission are the

best, taken as a whole, of any state. I desire especially to compliment the telephone department of the Oklahoma commission, which is very efficient."

**FIREBUG IS AT WORK
AT OKLAHOMA CITY**

Oklahoma City, Aug. 12.—There is a firebug in Oklahoma City, the firemen believe, and they and Fire Marshal C. C. Hammond would give a great deal to have the person arrested.

The latest incendiary fire was the Southwestern Feed company, at 904 East Eighth street, which was discovered on fire about 10 o'clock Thursday night. When the firemen arrived on the scene the flames were spreading from the center of the building, which caused Chief Kessler to decide to investigate. Employees of the feed store declare that they were very careful about smoking about the place.

Five carloads of hay were either burned up or water soaked. The loss to feed and building is placed at about \$2,000.

In the matter of Texas Department Store, Bankrupt. In Bankruptcy. NOTICE OF FINAL MEETING TO CREDITORS.

To the Creditors of the above named Texas Department Store of Ada, Pontotoc County, said District, Bankrupt:

NOTICE is hereby given that a final meeting of the creditors of the above named Bankrupt will be held at the office of J. F. McKeel in the city of Ada, Pontotoc County, Oklahoma, at 2 o'clock p. m., Tuesday, the 29th day of August, 1911, to pass upon the final account of W. C. Edwards, Trustee herein, which was filed in the office of the undersigned Referee in Bankruptcy at McAlester, said District, on the 13th day of June, 1911, and shows \$3074.51 on hand for distribution.

And notice is further given that at said meeting all claims not heretofore allowed will be taken up for consideration and any and all other business that may properly come before said meeting in connection with the closing of said estate will be considered.

Dated at McAlester, said District, this 11th day of August, 1911.
R. H. MATTHEWS,
Referee in Bankruptcy.

**WILSON FAVORS AN
OPEN INVESTIGATION**

All faculties of state educational institutions are now complete, the last of the vacant places having been filled at a meeting of the board of education Thursday night. There will be no more sessions of the board, unless some unforeseen matters come up requiring attention.

"We are now ready for the investigation," said State Superintendent Wilson Friday.

"Do all the members of the board want the hearing to be open?" was asked.

"I know I favor an open investigation," said the superintendent, "and I am sure the other members of the board feel the same way. One thing I do want, though, and that is everybody to be put under oath that gives any testimony before the governor."

Rader Re-Union.

One may think at times that to raise a family is a life of toil, disappointments and grief, but to gather once in a re-union of the family of Mr. and Mrs. Thomas A. Rader, of this city, one can draw from life's real picture the sublime grandeur of God's richest blessings. This aged couple, 82 and 70 respectively, are the parents of ten children, four girls and six boys, all grown, married and have families except the youngest son. They have never known what the sting of death was in their immediate family nor have they ever had a member of their family seriously sick. On Wednesday of this week these two happy souls with nine children, 18 grand-children and three great grand-children representing four generations, gathered at the home of their third son, Luther M. Rader, 10 miles west of this place where the family held two days of communion service and rehearsed the days of youth, gave assurance of profound happiness and that many hours were as one long sweet dream.

Wednesday was open house and they had as special guest, W. J. Moore of Carnegie, Okla., Miss Alta Estman, of Ada, C. L. Roff of Wayne, a son-in-law, Mr. and Mrs. J. S. Reynolds, C. A. Reynolds and children, N. H. Harmon and family, Mr. and Mrs. W. F. Crenshaw, Thad Ledsinger and family, and Miss Carry Crenshaw.

At the noon hour beneath the massive oaks was spread all that the hunger of man could imagine and there was sixty participants who did the best they could to devour all that was in sight, but in that they utterly failed.

There are forty-nine living descendants of the Rader family.

We beg personal indulgence, but this gathering gave to the State Gazette double honors, inasmuch that it was a Fields reunion as well. All of our family and daughter-in-law, and Mesdames Crenshaw, Ledsinger and Miss Crenshaw being our full representation in Oklahoma.—Wynnewood Gazette.

Fishing on a Grand Scale.

Spokane, Wash., Aug. 11.—Fishing with a seine 5,400 feet in length and 30 feet in width, operated by a powerful windlass, is the work in which employees of Bartholemew Bros. of St. Louis, Mo., will engage the middle of this month, in an effort to clear the lakes in Spokane county of carp. The fish will be sent to St. Louis, Kansas City, Chicago and other eastern points in refrigerator cars. It is estimated that the total shipments will amount to more than 50 cars. Trout, bass and other game fish caught in the draws will be put back into the water, according to an agreement with the firm and J. A. Uhlig, fish and game warden of the county. The seine fishermen will be accompanied by a state officer, who will see that the game fish are protected. Warden Uhlig says that carp weighing up to 30 pounds have been caught on vegetable and fish bait in the vicinity of Spokane this summer. It is estimated that the carp have destroyed billions of trout eggs during the last few years.

Mrs. J. E. Jones and sons are expected to arrive this afternoon from Texas, where they have been for sometime past.

Oakman Items.

Some of the farmers report open bolls in their cotton.

Rev. Colwell of Steedman who was helping conduct a series of meetings was taken quite ill and returned to his home Monday morning. We hope to see him back with us in a few days. This meeting gives promise of a great revival in Oakman.

Miss Angie Wright spent Sunday at the Ricketts home.

Mrs. W. J. Sloan is visiting in Arkansas.

Misses Myrtle Carter and Zora Berryman spent Friday at the Oliver home.

Our Sunday school is improving in attendance. We hope for a greater improvement after the revival.

Grandma Stephens is better at this writing.

**MAYOR PARDONS WOMAN
SENTENCED TO ROCK PILE**

Iola, Kan., Aug. 12.—Mrs. Ella Reese, the woman prisoner who has been ordered to work out her fine in bloomers on the streets, was pardoned today by Mayor C. O. Bollinger.

Judge Smeltzer had sentenced the woman to the rock pile because he saw no reason why a distinction should be made between violators of the law simply because of sex.

Mayor Bollinger and the Commissioners met today and were informed by the city attorney that the mayor had power to pardon where the action was approved by the commissioners. He immediately made an order releasing Mrs. Reese from jail. Judge Smeltzer made no comment other than to say he was glad the responsibility had been taken from his shoulders. The action of the mayor has met with general favor.

Muskogee Man Wanted in Illinois.

Muskogee, Okla., Aug. 12.—J. T. Merriwether, a well known shoe dealer, who has ben in Muskogee about a year, was arrested today on a charge of embezzling \$1,000 from the American Express company at Champaign, Ill. Merriwether waived requisition and was taken back to Champaign to face the charge. It is charged that he secured the money from the express company while acting as their agent, extracting it from a shipment.

While in Oklahoma City a few days ago, Otis Weaver called to see Duke Stone, whom he heard was ill. He had been down about a week, but was convalescing nicely when seen by Mr. Weaver. Mrs. Stone had just returned from her trip to Colorado.

**COMMISSION GOVERNMENT
SUCCEEDS AT DES MOINES**

"From a dirty, ill-governed, crime-ridden town, the Iowa capital has become one of the show-places of the middle West," writes Judson C. Welliver in the August number of the Munsey's Magazine. "The new civic center formed by grouping public buildings on both sides of the Des Moines River, is widely regarded as the finest effect of the kind in any American city. That the handsomely boulevarded, generously parked, gorgeously lighted, well-ordered place which Des Moines is today, could be developed in so short a time from the Des Moines of four years ago, is simply a wonder. If it could be brought to the realization of other cities, it would be certain to prove the most potent argument for the new system."

Showman Makes Trouble at Durant.

A general mixup has taken place at Durant on account of the permission given by the mayor to the Harrington Stock Co., which, recently showed at Ada, to erect its tent with in the fire limits and agreeing to permit it to operate five days for the sum of \$25, although the ordinance provided a license fee of \$20 per day.

The city attorney took the matter up, but the mayor having given orders that the show should not be disturbed, the police refused to serve any warrants. The council took the matter up, suspended the night force for 15 days, reprimanded the mayor and chief, and the matter finally ended by the show man paying two fines aggregating \$30.

GOOD WORK.

Done Daily in Ada—Many Citizens Tell of It.

Nearly every reader has heard of Doan's Kidney Pills. Their good work in Ada still continues, and our citizens are constantly adding endorsement by public testimony. No better proof of merit can be had than the experience of friends and neighbors. Read this case:

G. B. Dismukes, 17 Thirteenth St., W. Ada, Okla., says: "Last fall I was suffering a great deal from a constant soreness through kidneys and across my hips. I had no doubt that this misery was due to disordered kidneys. A friend finally advised me to try Doan's Kidney Pills and I procured a box at G. M. Ramsey's Drug Store and began their use. In a few days my pains and aches had disappeared and the contents of two boxes of Doan's Kidney Pills restored me to good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Heat Damages Cotton.

Tishomingo, Okla., Aug. 12.—The excessive high temperature of the past few days has damaged the cotton crop at least 25 per cent in Johnson county. There is no prospect for the cotton crop except the matured bolls, as all forms and small bolls, are shedding and drying up. The late forage crops are also damaged to a great extent.

S.S.S. CURES OLD BLOOD DISEASES

Contagious Blood Poison is responsible for a great many old blood troubles, such as scrofulous affections, skin eruptions, catarrhal troubles, Rheumatism, ulcerating sores, etc. There is no such thing as ridding the system of these effects by killing the poisonous germs. Any medicine powerful enough to accomplish this would also destroy many of the delicate linings and tissues, and wreck the constitution. The only way to cure old blood troubles is to REMOVE the cause from the circulation, and for this purpose nothing is equal to S. S. S. It goes into the blood, and drives out every taint and poison, and makes this vital fluid pure, rich and nourishing. S. S. S. has long been known as the greatest of all blood purifiers and many thousands have rid themselves of old blood diseases by its use. It ALWAYS removes the impurity from the blood and cures these old disorders, whether inherited or acquired. Book on the blood and any medical advice free to all. S. S. S. is sold at drug stores.
